Dear Owen,

Some time ago you sent me a large quantity of Cardio-C and some sodium ascorbate. I have been taking them every day, together with the Super-K, which you recommended although, I must confess that I do not stretch drinking it out over an hour as you recommended.

I had had three heart attacks prior to starting your protocol. Since then I have not had another heart attack. There had been an indication that I had significant calcium deposits in my cardiovascular system. I had a doctor feel of my arteries in my legs last week. He said it felt as if they were clear.

Of course, I could have a heart attack at any time, but I want you to know how thankful I am to you. You have at least put my mind at ease, and I believe possibly saved my life.

Thank you, Owen!!

Peace,

Berkley
Berkley

Thanks!!!
